Supplemental Type Certificate

Number: SR00821DE

This certificate issued to: Peregrine
7385 S. Peoria Street Unit C4
Englewood, CO 80112

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 27 of the Federal Aviation Regulations.

Original Product – Type Certificate Number: *Make:* FAA Approved Model List (AML) for ADS-B Out and In, Doc No. SR00821DE, Rev IR, dated July 19, 2016, or later FAA approved revision, lists the approved rotorcraft models, applicable installation data requirements, and specific limitations.
Model:

Description of Type Design Change:

Installation of Automatic Dependent Surveillance - Broadcast (ADS-B) Out and in functionality using the BendixKing KT74 Transponder and qualified position sensor and ADS-B In Receiver, in accordance with Master Drawing List, E-BK-15-0002, Rev IR, dated 04/15/2016, and FAA approved July 19, 2016, or later FAA approved revision.

Limitations and Conditions:

1. The installation should not be incorporated in any rotorcraft unless it is determined that the interrelationship between this installation and any previously approved configuration will not introduce any adverse effect upon the airworthiness of the aircraft.
2. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.
3. A copy of this certificate must be maintained as part of the permanent record of the altered rotorcraft.

(Limitations and Conditions continued on page 3 of 3)

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, and revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of Application: October 30, 2015

Date Reissued: December 19, 2018

Date of Issuance: July 19, 2016

Date Amended:

By Direction of the Administrator

Any alteration of this certificate is punishable by a fine of not exceeding \$1,000, or imprisonment not exceeding 3 years, or both. This certificate may be transferred or made available to third persons by licensing agreements in accordance with 14 CFR 21.47. Possession of this Supplemental Type Certificate (STC) document by persons other than the STC holder does not constitute rights to the design data nor to alter an aircraft, aircraft engine, or propeller. The STC's supporting documentation (drawings, instructions, specifications, flight manual supplements, etc.) is the property of the STC holder. An STC holder who allows a person to use the STC to alter an aircraft, aircraft engine, or propeller must provide that person with written permission acceptable to the FAA. (Ref. 14 CFR 21.120).

Supplemental Type Certificate

Limitations and Conditions (continued)

4. The modified rotorcraft must be maintained in accordance with the Instructions for Continued Airworthiness identified in FAA AML SR00821DE, Rev IR dated July 19, 2016, or later FAA approved revision.
5. A copy of Instructions for Continued Airworthiness identified in FAA AML SR00821DE must be made available to the owner/operator at the time of installation.
6. A copy of this certificate and the FAA approved Rotorcraft Flight Manual Supplement for the modified rotorcraft listed in FAA AML SR00821DE, must be maintained as part of the permanent records of the rotorcraft.

Certification Basis:

See attached FAA AML SR00821DE, Rev IR dated July 19, 2016 or later FAA approved revisions for the list of approved equipment and models.

-----END-----

Any alteration of this certificate is punishable by a fine of not exceeding \$1,000, or imprisonment not exceeding 3 years, or both. This certificate may be transferred or made available to third persons by licensing agreements in accordance with 14 CFR 21.47.
